**Bugzilla Documentation - Read the Docs**  
Bugzilla has a feature called User Watching. When you enter one or more comma-delinated user accounts (usually email addresses) into the text entry box, you will receive a copy of all the bugmail those users are sent (security settings permitting).

**2.8. User Preferences — Bugzilla 5.1.2+ documentation**  
Creating the Default User When you first run checksetup.pl after installing Bugzilla, it will prompt you for the administrative username (email address) and password for this "super user". If for some reason you delete the "super user" account, re-running checksetup.pl will again prompt you for this username and password.

**User Administration - Bugzilla**  
To find a user's identity, examine the properties of the User object returned by Bugzilla->user after the appropriate call to Bugzilla->login. See Bugzilla::User for details. Confidential Information Leakage. Bugzilla has various facilities to restrict products and bugs to users in certain groups. When users can bypass this mechanism, it is a security hole. This can occur when you fail to check appropriate permissions before doing something. Please consider this in your code.

**Developer's Guide :: Bugzilla :: bugzilla.org**  
For a Bugzilla user, attachment flags show up in three places: On the list of attachments in the Show Bug screen, you can see the current state of any flags that have been set to 7, +, or -. You can see who asked about the flag (the requester), and who is being asked (the requestee).

**2.3. Understanding a Bug — Bugzilla 5.1.2+ documentation**  
User Profiles By selecting My Profile from the dropdown in BMO's header, you can see a collection of statistics about your interactions with BMO. You can use the Search field at the top to see the profile of any other BMO user. Clicking on a user's name in a bug view also provides a link to that user's profile.

**BMO/UserGuide - MozillaWiki**  
Bugzilla allows you to "clone" an existing bug. The newly created bug will inherit most settings from the old bug. This allows you to track similar concerns that require different handling in a new bug.

**Bugzilla Documentation - Read the Docs**  
Ask your Bugzilla administrator for the URL to access it from your web browser. You may want to read the User Guide. Bugzilla can be installed under Linux, Windows, Mac OS X, and perhaps other operating systems.

**3. Installation and Maintenance Guide — Bugzilla 5.1.2 ...**  
Bugzilla is a defect/bug tracking tool. Defect tracking systems allow developers and testers to track all the outstanding defects. Bugzilla can be linked to other testing tools like JIRA, QC or ALM, etc. Bugzilla is developed in Perl and runs on MYSQL server. What You Will Learn: [ show]

**Bugzilla Tutorial: Defect Management Tool Hands-on Tutorial**  
Bugs have comments added to them by Bugzilla users. You can search for some text in those comments. Comment Tag Comments can have arbitrary tags added to them to help with filtering as well as mark comments as spam or abusive. Component Components are second-level categories; each belongs to a particular Product.

**BMO/UserGuide/BugFields - MozillaWiki**  
Information updated in Planner. In Planner, the percentage-complete is set to 100% if the the bug is RESOLVED FIXED, calculated otherwise. In order to perform this calculation, and knowing that the users do not always set the "Hours Left" field in Bugzilla, the Original Estimate is taken rather than Current Estimate if Current Estimate is set to "0.0".
