Veterinarians play an indirect role in human health when they control parasites in nonhuman animals that are transmissible to humans.

Parasitologist | About Bioscience

Members of the order Coleoptera, or beetles, are important because they may serve as intermediate hosts for certain parasites of domesticated animals.

Access Free Clinical

Dung beetles serve as intermediate host for *Spirocerca lupi*, the roundworm that produces esophageal nodules in dogs, and for *Gongylonema* species, a roundworm found in the tissues of the oral cavity and esophagus of goats and swine.
