Extreme ultraviolet (EUV) lithography is a soft X-ray technology, which has a wavelength of 13.5nm. Today's EUV scanners enable resolutions down to 22nm half-pitch. In a system, an EUV light source makes use of a high power laser to create a plasma. This, in turn, helps emit a short wavelength light inside a vacuum chamber.... » read more

Abstract: Wideband signal buffers that can be employed for mmWave (millimeter wave) communication are disclosed. One example signal buffer comprises a variable gain amplifier (VGA) that receives two control words and outputs a feedback signal, wherein both an amplitude and a phase of the feedback signal are based on the two control words and on a bias voltage; and a

These signals often have an inherent hierarchical structure (e.g., images typically consist of edges that together form simple shapes which again form larger, more complex shapes and so on). ConvNets can learn local non-linear features (through convolutions and nonlinearities) and represent higher-level features as compositions of lower ...

Principle of the Assay. The Proteome Profiler Human Phospho-Kinase Array Kit is a membrane-based sandwich immunoassay. Capture antibodies spotted in duplicate on nitrocellulose membranes bind to specific target proteins present in the sample (Step 1). Phosphorylation of captured proteins is detected with biotinylated phospho-specific detection antibodies (Step 2) and then visualized using ...

Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) is closely related to the deadly coronaviruses SARS-CoV-1 and Middle East respiratory syndrome coronavirus (MERS-CoV). Considerable efforts are focused on developing treatments, and therapies that work across coronaviruses would be particularly valuable. Shedding light on the host factors hijacked by the viruses, Gordon et al. mapped ...

Inventions don't generally happen by accident or in a random order: science and technology progress in a very logical way, with each new discovery leading on from the last. You can see that in our mini chronology of invention, below. Please note: it's not meant to be a complete history of everything, and it doesn't include inventions or technologies that aren't covered somehow, somewhere on ...
