The Beholden State Californias Lost

While there is plenty of literature on California's history, topography, and attractions, The Beholden State: California's Lost Promise and How to Recapture It is the first book examining in rigorous detail how a place seen just a generation ago as the dynamic engine of the American future could, through bad policy ideas, find itself with among the highest unemployment rates and poorest educational outcomes in the country. The book is as thoroughly analytical as it is pragmatically ...
