### Vs 2012 Clean Solution

The difference is the way the build and clean sequence happens for every project. Let's say if your solution has two projects, proj1 and proj2. If you do a rebuild it will take proj1, clean (delete) the compiled files for proj1, and build it. After that it will take the second project proj2, clean the compiled files for proj2, and compile proj2.

### Build solution vs. Rebuild solution vs. Clean solution ...
