A good deal of mystique surrounds Webers, specifically Weber jetting and tuning. However Weber DCO series carbs are not as complicated as you might imagine, and whereas there is no substitute for a good rolling road session to tune them, there is much you can do to tune them yourself, by selecting the correct choke sizes and initial jet

Common Weber books recommend 40DCOE carbs with 4.5mm Aux. Venturi's for stock 240z's and 260z's. For racing applications, use the smallest size that provides maximum power on the dyno. The Idle Jet: The Idle Jet is inappropriately named as it primarily controls the cruise mixture more so than the idle mixture.
